**Reservation fee will be refunded at the last market which the trader will participate. If reservation is canceled or trader doesn't show up the reservation deposit will not be refunded.**

**NOTE!** We do not take too many of the same or similar products sellers on markets, but we do not also grant exclusive rights.

**ELECTRIFICATION:** Main distribution boards are installed by the organizer but the salespersons must take care of having extension cords if needed (minimum 20 meters/sale place). **Attention! Use only grounded extension cords that are designed for outdoor use. Using unearthed or indoor extension cords is forbidden.** Salespersons must announce their need of electricity beforehand. **The organizer will collect the electricity fees at the market place.**

**Electricity charges per event are:**

Normal one-phase ac electric power 15€/day

Three-phase electric power

3x16A 25€/day      3x32A 50€/day      3x63A 100€/day

**TMK reserves the right to change electricity prices due to the global energy crisis.**

**5. BUILDING THE SALES PLACES:** Everyone is responsible of building their own place. The organizer has the right to check the places and order the salesperson to carry out some changes if they are needed. When arriving to festival salespersons must announce themselves at the market office. The staff will show the way to the market

places. Every trader has to securely fasten their stalls with ropes and weights to handle every weather conditions. Each merchant is responsible for any damages caused by the lack of a securing for the weather conditions at their own expense. Tents and pop-up tents, as well as temporary structures (excl. professional performance stages and structures, for which a separate written certificate of mounting) must be equipped with at least the weights and fasteners according to the manufacturer's instructions. If there are no clear instructions from the manufacturer, the instructions from the rescue service must be followed.
